# An 8-page booklet from a double-sided photocopy
Double sided photocopy, page order
First fold

Second fold

Staple from the back

# Cut bottom fold open

This is the basic idea!

Start with an A3-sized sheet

42 cm

29,7 cm

A3 sized paper

or two A4 papers

21 cm

21 cm

Divide the paper in 8 parts

Add a guiding line one cm from the dividing line and from the edge of the paper

Your story should be prepared in this order:

# Write your story:

CONFIANÇA

A HOUSE IN THE DARK, "LIGHT?" ASKS
SOMEBODY INSIDE. THE LIGHT GOES
ON. YOU CAN SEE A BED. THEN THE
SAME PERSON ASKS "MUSIC?". THEN. "IS
THERE STILL SOMETHING MISSING?"
REPLY COMES "CONDOM" THEN THE BOY
AND GIRL MEET. BED CAN BE SEEN IN
THE PICTURE.

# Divide the story into eight parts

Make a script, sketch in the images and your texts
Make your final artwork with black ink

Cut the artwork along the dividing lines

# Your story is now on 8 pieces of paper

Glue them on a new A4-sized sheet of paper, in this order:
You can now start photocopying

First one side, then let it cool off for a moment, then copy the other side
Make as many double-sided copies as you need, then prepare for folding, stapling and cutting the booklet
Fold the sheet once...

Then once more...

Staple it from the back...

Then cut the bottom open...

Here it is: an 8-page booklet for the price of one double-sided photocopy!
